

As a registered nurse I have had the experience of working with many doctors. I am always careful to choose doctors I know to be among the *very best* to care for my family and myself. Recently I had a small lesion on my face which was diagnosed as a basal cell carcinoma. Dr. Henry Clever III is a dermatologist who specializes in Mohs surgery. He removed the lesion and sent me home with complete instructions on how to care for the wound in order to promote healing and prevent infection. His nurse called me the next day to check on my condition and pain level. I was happy to report no problems and only minor discomfort.

I am happy to recommend Dr. Clever to anyone needing Mohs surgery. The personal attention from Dr. Clever and his staff is beyond any that I have experienced elsewhere. Dr. Clever and his entire staff will put you at ease and make you as comfortable as possible in a very home like yet clinical atmosphere.
